

ADAC Plastics Names New Director of Program Administration

ADAC Plastics, Inc., a leading supplier of door handles and components to the automotive industry, has recently announced that Stacey Henkel has been promoted to Director of Program Administration.

Henkel had more than 12 years of experience in the automotive and manufacturing industry serving in a variety of positions including engineering and operations management. In her newest role, Henkel is responsible for program budgeting, change control, and service management. Henkel has a bachelor's degree in civil engineering from Purdue University and a Master's of Management degree from Aquinas College.

"Stacey had been an integral part of the team for many years. She had demonstrated the skill, ability and knowledge needed to become a Director," said Don Bittner, Executive Vice President. "We look forward to her continued contributions."
